### The CDN Quarterly Sequence

The **CDN Quarterly** is part of the total CDN subscription package. One section of the **Quarterly** is sent every month to our CDN subscribers (along with their **CDN Monthly Supplement**), and the contents of the **Quarterly** rotate every three months. The following outlines the publishing schedule:

**Quarterly 1:** published Jan.; Apr.; July; Oct.; contains Half Cents, Large Cents, Half Dimes, Dimes through 1891, Twenty Cents, and Quarter Dollars through 1891; and all by date in standard grades!

**Quarterly 2:** published Feb.; May; Aug.; Nov.; contains Half Dollars through 1891, Dollars through 1873; Trade Dollars, Gold Dollars, Quarter Eagles through 1907, Three Dollar Gold; and all by date in standard grades!

**Quarterly 3:** published Mar.; June; Sept.; Dec.; contains Four Dollar Gold, Half Eagles through 1908; Eagles through 1907, Double Eagles through 1907; and all by date in standard grades!

Plus, the **Quarterly** regularly contains 'centerfolds' with: Proof Cents; Proof Two Cents; Proof Three Cent Silvers; Proof Three Cent Nickels; Proof Nickels; Proof Barber Dimes, Quarters, & Halves; Proof Dollars; and all by date in standard grades!

Combining the weekly, monthly and quarterly *Greysheets* included in your subscription, subscribers to the CDN now receive **current** pricing information on **every** regular issue U.S. coin; in fact, it is like receiving four copies of an annual pricing guide, with the advantage that prices are up-to-date when you receive them! All this, plus weekly and monthly updates on faster-moving issues.

### Using the CDN Quarterly

CDN publications report prices based on national **dealer-to-dealer** buying and selling information. These **wholesale** prices result from our monitoring **all** possible **sight-seen** transactions and offers to buy or sell. The coins may be certified or "raw", but the grading **must adhere** to the current leading standard. Prices also consider activity in the certified **sight-unseen** market (PCGS & NGC). **CDN Quarterly** prices will be strongly influenced by Sells which are lower than listed levels. A higher Bid will normally raise **CDN Quarterly** prices, and a lower Sell will normally lower them.

The **CDN Quarterly** reports the **highest wholesale** prices seen nationally, which assume a **willing** and **knowledgeable** buyer. The actual buying offer for a rarer coin depends largely on the availability of a customer; on occasion, customer demand may be weaker for rarer dates or varieties, and dealers must consider this before purchasing for inventory. Rarity also plays a key role in selling prices, with a substantial premium asked for extremely scarce coins; the wholesale asking price may be multiples of the listed Bid price. Prices on more-frequently traded coins will reflect the greater activity; prices on less-frequently traded coins may reflect last-known information. These **wholesale** prices should not be misinterpreted by **retail** clients as levels at which coins can be bought or sold; wholesale buying requires a substantial market presence.

Prices listed are for typical examples; numismatists expect a wide variation in looks and attractiveness within a particular grade. A coin must stand on its own merits; this is the heart of **sight-seen** trading. Bronze coinage is especially susceptible to spotting, and severely spotted issues may command a lower price. Prices will also be affected by cleaning, planchet flaws or porosity, rim nicks, and other factors in the final grading of a coin. Prices listed are for 'no-problem' coins.

A tilde ("~") indicates no reliable pricing information is available; an "n/m" indicates that none were made. Prices in the XF columns are for coins graded XF40; AU columns are for coins graded AU50.

## You probably *haven't* seen our work.

### All you'll see is a beautiful coin.

A common first reaction to a professionally conserved coin is wonderment. Conservation reduces the ill effects of improper storage or exposure to environmental contaminants—substantially improving a coin's visual appeal.

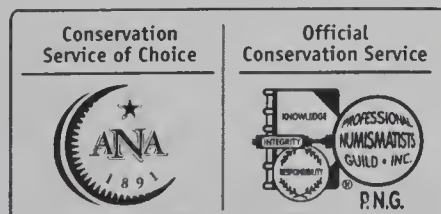

Most conservation projects involve only the removal of surface impurities, enhancing the vibrancy of the coin's original patina.

Specific conservation focuses attention on a small area of a coin's surface to remove a spot or debris. This eliminates a visual distraction and removes the impurity that may cause further deterioration.

By returning a coin's surface to its original state, its natural beauty shines through. The professional conservation goes unnoticed, and the result is a beautiful coin.

# WE CAN CREATE A LEGEND FOR YOU

- ★ Legend Numismatics carries an extensive inventory of PCGS & NGC certified coins: 1¢ thru Gem Proof \$20. In 2005 we offered over 8,000 coins worth more than \$200 million dollars in Opportunity Knocks, our monthly newsletter and website.
- ★ Last year we located and placed \$10.2 million dollars worth of coins for our want list customers.
- ★ Members of Legend Numismatics personally attend every major show and auction that is held.
- ★ Members of Legend Numismatics' staff have experience of over 50 years as full time coin dealers. Few other firms have the experience, abilities and contacts equal to Legend.
- ★ Quality is our obsession. We know you can't build a great collection without it!
- ★ We don't mess around. We've seen other dealers who make outrageous claims, play games, and B.S. the customer. That's not Legend. Repeat business/true loyalty is what we're about. We have the record to prove it!
- ★ Your business is important to us. Whether it's building your dream collection or just adding a coin to a set, Legend Numismatics is 100% committed to helping you attain your goals and making your numismatic experience with us both enjoyable and rewarding.

### The CDN Quarterly Sequence

The **CDN Quarterly** is part of the total CDN subscription package. One section of the **Quarterly** is sent every month to our **CDN** subscribers (along with their **CDN Monthly Supplement**), and the contents of the **Quarterly** rotate every three months. The following outlines the publishing schedule:

**Quarterly 1:** published Jan.; Apr.; July; Oct.; contains Half Cents, Large Cents, Half Dimes, Dimes through 1891, Twenty Cents, and Quarter Dollars through 1891; and all by date in standard grades!

**Quarterly 2:** published Feb.; May; Aug.; Nov.; contains Half Dollars through 1891, Dollars through 1873; Trade Dollars, Gold Dollars, Quarter Eagles through 1907, Three Dollar Gold; and all by date in standard grades!

**Quarterly 3:** published Mar.; June; Sept.; Dec.; contains Four Dollar Gold, Half Eagles through 1908; Eagles through 1907, Double Eagles through 1907; and all by date in standard grades!

Plus, the **Quarterly** regularly contains 'centerfolds' with: Proof Cents; Proof Two Cents; Proof Three Cent Silvers; Proof Three Cent Nickels; Proof Nickels; Proof Barber Dimes, Quarters, & Halves; Proof Dollars; and all by date in standard grades!

Combining the weekly, monthly and quarterly *Greysheets* included in your subscription, subscribers to the **CDN** now receive **current** pricing information on **every** regular issue U.S. coin; in fact, it is like receiving four copies of an annual pricing guide, with the advantage that prices are up-to-date when you receive them! All this, plus weekly and monthly updates on faster-moving issues.

### Using the CDN Quarterly

**CDN** publications report prices based on national dealer-to-dealer buying and selling information. These **wholesale** prices result from our monitoring **all** possible **sight-seen** transactions and offers to buy or sell. The coins may be certified or "raw", but the grading **must adhere** to the current leading standard. Prices also consider activity in the certified **sight-unseen** market (PCGS & NGC). **CDN Quarterly** prices will be strongly influenced by Sells which are lower than listed levels. A higher Bid will normally raise **CDN Quarterly** prices, and a lower Sell will normally lower them.

The **CDN Quarterly** reports the **highest wholesale** prices seen nationally, which assume a **willing and knowledgeable** buyer. The actual buying offer for a rarer coin depends largely on the availability of a customer; on occasion, customer demand may be weaker for rarer dates or varieties, and dealers must consider this before purchasing for inventory. Rarity also plays a key role in selling prices, with a substantial premium asked for extremely scarce coins; the wholesale asking price may be multiples of the listed Bid price. Prices on more-frequently traded coins will reflect the greater activity; prices on less-frequently traded coins may reflect last-known information. These **wholesale** prices should not be misinterpreted by **retail** clients as levels at which coins can be bought or sold; wholesale buying requires a substantial market presence.

Prices listed are for typical examples; numismatists expect a wide variation in looks and attractiveness within a particular grade. A coin must stand on its own merits; this is the heart of **sight-seen** trading. Bronze coinage is especially susceptible to spotting, and severely spotted issues may command a lower price. Prices will also be affected by cleaning, planchet flaws or porosity, rim nicks, and other factors in the final grading of a coin. Prices listed are for 'no-problem' coins.

A tilde (" ~ ") indicates no reliable pricing information is available; an "n/m" indicates that none were made. Prices in the XF columns are for coins graded XF40; AU columns are for coins graded AU50.

Your notes deserve the best. That's why PMG developed this holder — combining the qualities that collectors value most.

The PMG holder...

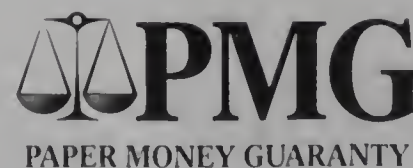

...Is made from the highest-quality, inert materials. Since there are no openings or perforations, it guards against environmental hazards and contaminants.

...Uses a heavy-gauge material, ideal for long-term storage. Its durability provides superior protection even for notes printed on the thinnest papers, such as Obsolete and Confederate banknotes.

...Features a large label that displays precise and specific information about your note, including a full attribution, pedigree, and graders' comments, as applicable.

PMG's primary commitment is to provide accurate and consistent grading of paper money — to impart confidence and reliability. This also includes understanding what numismatists want from a holder. And that's why we are bringing a new standard of impartiality and integrity.

The following outlines the publishing schedule:

**Quarterly 1:** published Jan.; Apr.; July; Oct.; contains Half Cents, Large Cents, Half Dimes, Dimes through 1891, Twenty Cents, and Quarter Dollars through 1891; and all by date in standard grades!

**Quarterly 3:** published Mar.; June; Sept.; Dec.; contains Four Dollar Gold, Half Eagles through 1908; Eagles through 1907, Double Eagles through 1907; and all by date in standard grades!

Plus, the **Quarterly** regularly contains 'centerfolds' with: Proof Cents; Proof Two Cents; Proof Three Cent Silvers; Proof Three Cent Nickels; Proof Nickels; Proof Barber Dimes, Quarters, & Halves; Proof Dollars; and all by date in standard grades!

Combining the weekly, monthly and quarterly *Greysheets* included in your subscription, subscribers to the **CDN** now receive **current** pricing information on every regular issue U.S. coin; in fact, it is like receiving four copies of an annual pricing guide, with the advantage that prices are up-to-date when you receive them! ### Using the CDN Quarterly

CDN publications report prices based on national dealer-to-dealer buying and selling information. These **wholesale** prices result from our monitoring all possible **sight-seen** transactions and offers to buy or sell. The coins may be certified or "raw", but the grading **must** adhere to the current leading standard. Prices also consider activity in the certified **sight-unseen** market (PCGS & NGC). **CDN Quarterly** prices will be strongly influenced by Sells which are lower than listed levels. A higher Bid will normally raise **CDN Quarterly** prices, and a lower Sell will normally lower them.

The **CDN Quarterly** reports the **highest wholesale** prices seen nationally, which assume a **willing and knowledgeable** buyer. The actual buying offer for a rarer coin depends largely on the availability of a customer; on occasion, customer demand may be weaker for rarer dates or varieties, and dealers must consider this before purchasing for inventory. Rarity also plays a key role in selling prices, with a substantial premium asked for extremely scarce coins; the wholesale asking price may be multiples of the listed Bid price. Prices on more-frequently traded coins will reflect the greater activity; prices on less-frequently traded coins may reflect last-known information. These **wholesale** prices should not be misinterpreted by **retail** clients as levels at which coins can be bought or sold; wholesale buying requires a substantial market presence.

Prices listed are for typical examples; numismatists expect a wide variation in looks and attractiveness within a particular grade. A coin must stand on its own merits; this is the heart of **sight-seen** trading. Bronze coinage is especially susceptible to spotting, and severely spotted issues may command a lower price. Prices will also be affected by cleaning, planchet flaws or porosity, rim nicks, and other factors in the final grading of a coin. Prices listed are for 'no-problem' coins.

A tilde ("~") indicates no reliable pricing information is available; an "n/m" indicates that none were made. Prices in the XF columns are for coins graded XF40; AU columns are for coins graded AU50.

# NEED TO MAIL?

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the

## 2006 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000 current names and addresses. And **current** is a promise taken seriously - the data base is updated **daily**. All for only \$325 - well below the mailing industry standard of \$75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings (you can save more than \$425 over First Class postage rates!). Need just one state or region? Need a trial sample? Contact us for details!

YES, I want to order mailing labels averaging 5,000+ names from the 2006 Numismatic Dealer Directory. I understand that my \$325 fee entitles me to only one usage of these names. \_\_\_\_\_ signature

**Quarterly 2:** published Feb.; May; Aug.; Nov.; contains Half Dollars through 1891, Dollars through 1873; Trade Dollars, Gold Dollars, Quarter Eagles through 1907, Three Dollar Gold; and all by date in standard grades!

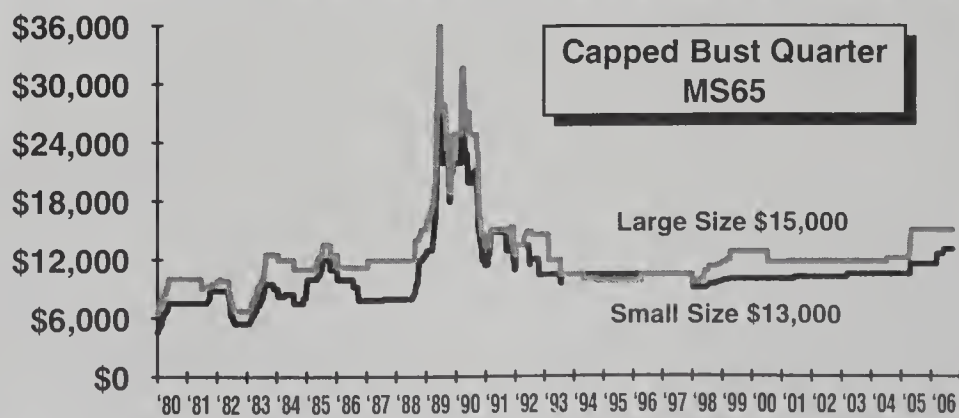

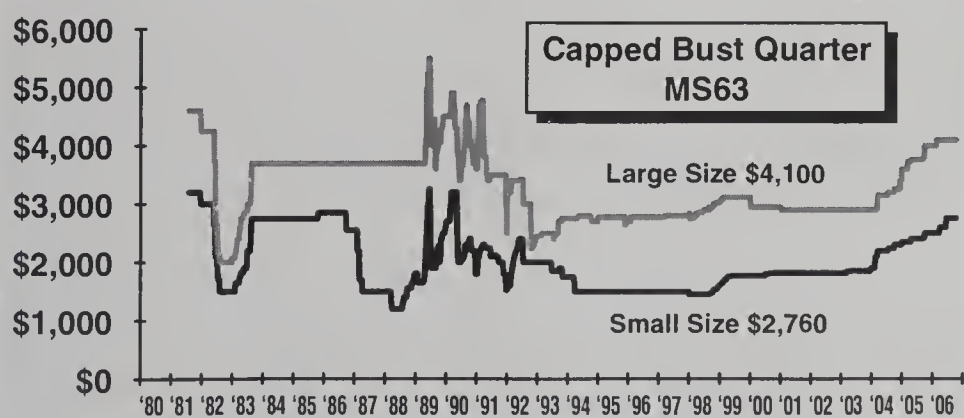

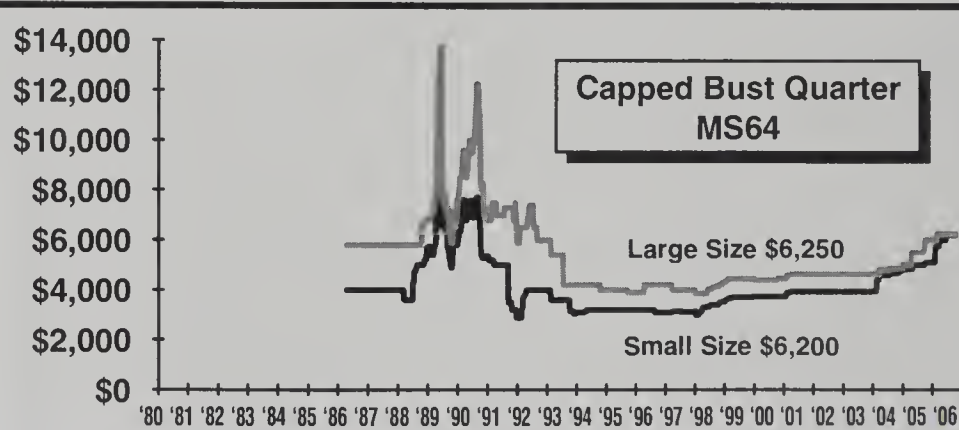

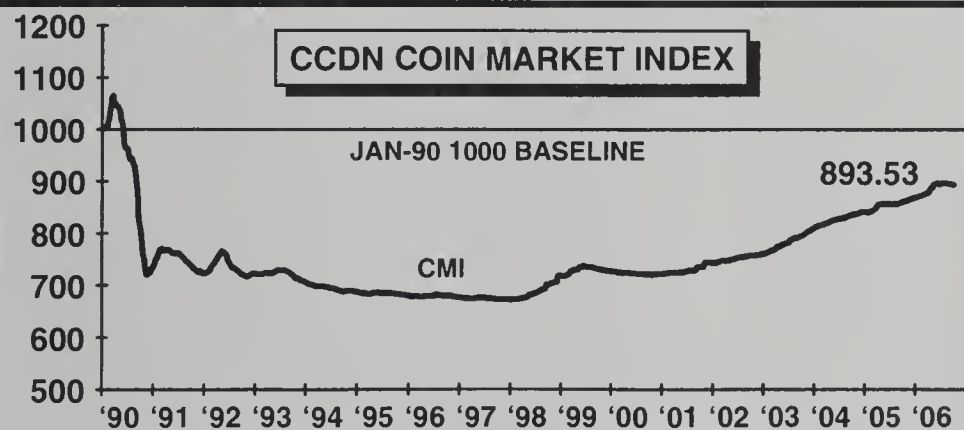

**Quarterly 3:** published Mar.; June; Sept.; Dec.; contains Four Dollar Gold, Half Eagles through 1908; Eagles through 1907, Double Eagles through 1907; and all by date in standard grades!

Plus, the **Quarterly** regularly contains 'centerfolds' with: Proof Cents; Proof Two Cents; Proof Three Cent Silvers; Proof Three Cent Nickels; Proof Nickels; Proof Barber Dimes, Quarters, & Halves; Proof Dollars; and all by date in standard grades!

Combining the weekly, monthly and quarterly *Greysheets* included in your subscription, subscribers to the CDN now receive **current** pricing information on **every** regular issue U.S. coin; in fact, it is like receiving four copies of an annual pricing guide, with the advantage that prices are up-to-date when you receive them! ### OBSOLETE MARKET MATURES AUCTION RESULTS DISPLAY STRENGTH

#### ACTIVITY

... across the market

by Karen Foley

The most significant commercial activity over the past month was the New York City offering of an additional installment of the Herb and Marjorie Schingel Collection of Obsolete Currency by Synthe in New York City. During the period when these collections were formed, the Schingels were well-known in the trade for paying exceptionally strong prices for material they desired for their collection. Indeed, when the disposal of these holdings began, there was some speculation that realizations for their material might prove disappointing in terms of original acquisition prices. That certainly has not been the case. In fact, as has been demonstrated repeatedly at auction over the years, when quantities of individual items are offered, such efforts typically generate considerable excitement. Rather than overcoming the ability and interest of buyers to absorb the offered quantities at their current levels, the effort is typically one of generating sufficient additional excitement and demand to move prices to even higher levels than prevailed prior to the most recent sale. The Schingel auctions have continued in this pattern.

The Synthe firm has increasingly moved away from holding auctions in conjunction with major numismatic events, favoring instead their own headquarters site in New York City. There was a time when virtually all auction houses operating in the Paper Money specialty felt that their sales needed the additional boost provided by affiliation with a show or convention. Over the past year there has been a movement away from such affiliation, with Curran's Auctions of America holding their exceptionally successful Taylor Family Collection sale at their Dallas headquarters last February and Lyn Knight now holding a number of rarity laden sales at his own new headquarters in building.

The fact that such free-standing auctions occur, the success that they now do demonstrate yet another indication of the broadening interest in collectible Paper Money.

#### LARGE SIZE TYPE NOTES

Large Size Type Notes over the past year have become even stronger than in the past. Prices, especially for the very highest quality Gem material, have moved to historically high levels. Interest in low and large serial numbers in particular has continued to grow, a considerable challenge to have met, as interest levels and prices here could only have been regarded as exceptionally strong at the beginning of the year.

With the entry of PLS and NCC into the third party certification field, certified Notes are appearing with greater frequency, especially in auction offerings. Although quality premiums had generally been waiving at the upper end of the spectrum even prior to this, my belief is that this trend will only accelerate in the years ahead, as the marketplace reputation and acceptance of these two enterprises, earned by years of performance in the coin field, has the inevitable effect of attracting a wider population of buyers to the Paper Money arena. Even a casual perusal of coin pricing publications easily demonstrates that the final few points of grading perfection in that area lead to exponential price increases compared to the next lowest grade. Paper Money buyers have always tended to be more collectors rather than speculators oriented. Whether the wider availability of third party grading from NCC and PLS will lead to a closer resemblance between the

prices and costs for the pricing spreads has the tendency to move above remains to be seen and regardless of position in the marketplace, observers will find that analysis to be determined by the actual behavior of the buyers.

#### SMALL SIZE TYPE NOTES

Like the Large Size Type field, there is a growing price umbrella being paid here at the highest end of the quality spectrum. While interest in Low and Fancy serials and Star Notes remains quite vigorous, one can not help but notice the increasing incidence of such items not meeting buyer reserves, a notion and remaining unsold. Rather than chafing regarding a waiting list of interest in such items, my own feeling is that this signals unrealistic expectations above current levels by consigning as best sellers hoping for what buyers are more willing to immediately agree to a resale expectation.

#### FRACTIONAL CURRENCY

Fractional Currency continues to rebound from the lower reached several years ago. The small group of dealers who make a consistent effort to maintain significant inventories of fractional currency find that their green and challenge is in replacing stock once it is sold, rather than finding buyers willing to pay the rising price better than in the regular and early demand.

#### NATIONAL BANK NOTES

While National Bank Notes remain especially strong, with rare pieces commanding selling prices that would have been awarded at five or ten years ago, there is increasing evidence of speculator activity here. The typical collector buying a rare National is generally willing to wait a year or two until the item is sold, rather than the typical collector who might not take place for decades. One can not help but notice, however, the increasing frequency with which rare Nationals are coming back on the marketplace after being held by the buyer for only two or three years, a buying/selling behavior pattern more typical of the numismatic speculative than the collector. Whether this will result in price instability in this field remains to be seen. The answer will be determined by how broad the marketplace here actually has become and whether an excessive enough base of new buyers has entered this once thin marketplace to absorb such fluctuations of interest more frequent than have been typical in the past.

#### MISCELLANEOUS

As noted above, the Schingel sale offering by Synthe in mid December has clearly demonstrated that the Obsolete arena has moved to a new level of popularity and buyer participation. There was a time not very long ago when a realization of \$1,000 or more for one Obsolete note might have been big news. The Schingel sale prices realized contain a considerable multiple of realizations above that level and even a scattering in the five figures. Just a few worthy of special mention are the \$1 City of Niagara, Niagara-Moreau Note estimated at \$3,000-\$4,000, actually sold for \$25,000. Another item doing exceptionally well was the \$1 Baited Mammal, Oklahoma Cherokee Nation note estimated at \$1,500-\$3,000. The hammer fell at \$11,525.

While these results were certainly not typical of premiums above estimate for the overall sale, they do clearly demonstrate that the Obsolete market has reached a new level of maturity and buyer acceptance, at least a healthy higher price level applying to items of exceptional merit and rarity.
